worth, an old garden truck farmer of Carmensville, near High Bridge, had a strange cataleptic experience, of which but few of his friends know, as he does not talk on the subject willingly. He said to-day: "Oh, it was a year ago. I had been ill of fever some time, and as my strength left me my sense of life became more acute. The doctor's looks told me thet he had given me up and there was no consolation in the facer of my few few of consequents the given me up and my friends. One evening the crisis came my friends. One evening the crisis came. I was seized with strange quiverings; there was a rushing sound in my ears; I tried to move, but couldn't. A confusion overwhelmed like a tidal wave, and when the wave passed I was fally conscious of everything, but could not make a motion to save my soul, not even my eyelid. I heard the nurse say: 'He is dead.'

"I exerted my utmost power to stir."

I heard men bring the coffin in, knew it was men by the footfalls, and knew it was a coffin by the sound it made when it knocked sgainst the door. They litted me up and put me in, and the lid was put on it. The sound it made to me was like thunder. The next day I felt the coffin litted, and I was carried out and placed in the hearse door, and in a few minutes I felt that we were going toward the cemetery."

minutes I felt that we were going toward the cemetery."

"I make frightful efforts to scream, but, of course, without success. The hearse halted, my coffin was pulled out, and then I felt I was being carried on the shoulders of men, because of the irregular motion. Then came a pause, and I felt my coffin swing as if it was hanging by ropes, and I was lowered to the bottom of the grave, and, as the first cloud fell on the coffin, it felt to me as if I had been hit on the head with a sledge-hammer. Noises gradually ceased. Finally a sound came to me as if the grave-digger was sispping the mound with his spade. When this ceased all became silent, and I knew everyhody was gone. I felt no oppression of heat or closeness, but just mortal agony, and I prayed for death. I must have become inconscious then, because very few moments had passed, apparently, when I felt living hands working about my shoulders and head.
"I was dragged upout of the coffin into the air, and carried swiftly away in a joiting wagon. Next I was aple to distinguish auditole conversation, gnd learned that I was in the hands of grave-robbers, and was on my way to the dissecting-rooms, in—I guess I better not give the name of the college. devote his time to the emigrant population. Dr. A. C. Smith, of Freeport, Ill,
spoke on the report. He said the irish
emigrants did not come under the scope
of the committee, because they were Homan Catholics. Their energies must be
devoted principally toward evangelising
the Germans, because they would leave
a deeper impress on the future American race than any other nationality. If
they refused to preach to Germans in
the German toigue they would lose the
opportunity of preaching either to them
or to their children. The Germans were
thrifty and intelligent and influenced
American political, social and religious
life, and the Presbyterian Church could
not afford to ignore them.
The conference then took a recess,
and the further consideration of the report on emigrant evangelisation was
postponed till to-morrow.

One day last week the body of a man was found lying on the bank of the Greenbrier river, about three miles above Alderson, in Greenbrier county. The body had evidently been floated down during a recent rise in the river and deposited where found. The authorities were notified, and a jury of inquest went down from Ronceverte to investigate the matter. The body was very much decomposed, and was that of a man of about 33 years of age, and was well dressed, having on a failor-made suit of clothes, worth about \$35 or \$40. Nothing on his body was found to identify him. The only articles found were a couple of pocket handkerchiefs, purse, (no money in it), and small knife.
